*We can now illuminate  
synthetic objects with real light.*

*How do we add synthetic objects to a  
real scene?*

- How can we capture the whole sky as an environment map?
- What happens with the sun?

# Direct HDR Capture of the Sun and Sky

SIGGRAPH2004

- Use Sigma 8mm fisheye lens and Canon EOS 1Ds to cover entire sky
- Use 3.0 ND filter on lens back to cover full range of light
  - Only 0.1% of light gets through!
