Jan 14, 2014

Today we covered the following nice paper on interactive character posing from a sketched line of action. Whatever math we cover in the coming weeks, remember that we wish to have software that serves the user / artist and helps them to create beautiful results.

Guay, Martin, Marie-Paule Cani, and Remi Ronfard. "The line of action: an intuitive interface for expressive character posing." *ACM Transactions on Graphics (TOG)* 32, no. 6 (2013): 205.
