

## 15-464/15-664 Reference List for February 11, 2019

Aside from the paper presentations, we talked about research by Michael Black's group on capturing and representing the human body.

I first introduced this paper:

Romero, Javier, Dimitrios Tzionas, and Michael J. Black. "Embodied hands: Modeling and capturing hands and bodies together." *ACM Transactions on Graphics (TOG)* 36, no. 6 (2017): 245.
