

16-899: Reference list for Monday, April 11th

Related to details in tactile sensing, we spoke in detail about this review paper:

Johansson, R. S., and J. R. Flanagan. "6.05-Tactile sensory control of object manipulation in humans." *The Senses: A Comprehensive Reference*, Academic Press, New York, NY (2008): 67-86.

http://psyc.queensu.ca/~flanagan/papers/JohFla_BC_The_Senses_07.pdf

A review of theories and findings related to evolution of the human hand can be found here:

Marzke, Mary W., and Robert F. Marzke. "Evolution of the human hand: approaches to acquiring, analysing and interpreting the anatomical evidence." *Journal of anatomy* 197.01 (2000): 121-140.

<http://onlinelibrary.wiley.com/doi/10.1046/j.1469-7580.2000.19710121.x/pdf>

The following two books are excellent resources about human hand anatomy and what is known about human hand function and control:

Brand, Paul W., and Anne Hollister. *Clinical mechanics of the hand*. Mosby Incorporated, 1999.

Jones, Lynette A., and Susan J. Lederman. *Human hand function*. Oxford University Press, 2006.
